

MTA MOTOR INDUSTRY AWARDS FOR EXCELLENCE

The Motor industries night of nights was held on the 15th November 2014, with over 350 members and guests in attendance to acknowledge Award Winners from 18 categories. Elegance & Sophistication is the only way to describe the event, which took place at the Prestigious WaterView Function Centre, Sydney Olympic Park.

The 2014 MTA Motor Industry Awards for Excellence Awards evening is designed to recognise and reward outstanding achievements in the motor industry.

MTA received hundreds of nominations for the 18 categories. Each submission was judged and the top 10% of nominations in each category became a finalist. Finalists were announced on the 9th October 2014.

One should not underestimate the huge accomplishment our members and their staff had achieved in just reaching the finalist stage. It is a remarkable achievement that should be celebrated. Judging is always an extremely rigorous process for these awards, and each Winner was well deserved.

The awards have become something of an institution in the motor trades industry. Winning an award gives a business prominence within the industry

and also opens up additional business and career opportunities.

On gorgeous spring November evening finalists, sponsors and special guests enjoyed a remarkable evening of fine food, great entertainment and most importantly the announcement of the 2014 MTA NSW Motor Industry State Awards for Excellence Winners.

All winners were extremely honoured to be given these prestigious awards for 2014 and it was great to see so many finalists congratulating the winners in their category. This shows honourable sportsmanship.

I would like to thank our Major Sponsor OurAuto and all our category sponsors (see below)

Without the valuable contribution from all our Sponsors the evening would not have been as glamorous and as exciting as it was.

MTA urges all members to support our sponsors as much as they support your Association and yourselves. If you didn't nominate this year, please consider participating in the 2015 Awards program.

There are many other reasons why YOUR business should nominate, winning the MTA State Awards for your nominated category provides:

- **A Competitive Advantage:** Provides a point of difference over your competitors.
- **Trust:** Helps consumers feel secure about the level of Customer Service they can expect to receive from your business.
- **Credibility:** Demonstrates to customers your commitment to service and excellence which strengthens your reputation.
- **Exposure:** Enables you to promote your Award-winning status to both your current and potential customers which helps you to retain customers and gain new business.
- **Focus:** Focuses employees on maintaining and improving customer service levels.

- **Motivation:** Recognises employees past efforts and encourages them to continue to deliver exceptional service.

Even becoming a finalist you receive

- A finalist certificate for placement in your workshop or showroom.
- A finalist logo for use on websites, letterheads, business cards, email signatures etc.
- Recognition of being a finalist at the MTA State Awards for Excellence.
- Recognition of being a finalist in the MTA E-Journal.

Finally I would like to sincerely thank all the MTA Staff and associated people and companies who assisted in bringing this event to life on the night. For more event images make sure you visit our December 2014 edition of the MTA e-journal.
