Woods Bagot Award for Best Public Building

Award Criteria

This award recognises excellence in a new or refurbished public building.

A public building is a building used for public visitation or occupied for the delivery of services to the community (whether or not it is owned by government) such as (but not limited to) healthcare, education, community facilities, sporting facilities, public infrastructure, art gallery or museum.

Eligible entrants will be developments or refurbishments that have been completed in the previous five years, have been operating for at least one year as at 31 December 2016 and have not previously won the Award.

The award is open to members of the Property Council of Australia only.

Innovation in your responses should be clearly expressed.

All finalist projects for the National Awards will automatically be entered into their State Development of the Year. This award is presented in each state at a cocktail party prior to the National Awards Gala Dinner.

The State Development of the Year is determined by the National Awards judging panel and is awarded to the highest scored development in that state. An invitation will be issued to all finalists early in 2017 with details of their State Development of the Year cocktail party.

Judging Criteria

1 ECONOMIC AND FINANCIAL FACTORS – 20% WEIGHTING

Explain how the development demonstrates the investment was an effective use of public money.

2 PROJECT VISION AND INNOVATION – 20% WEIGHTING

Describe, using specific examples, the ways in which the development displays innovation in the project concept and in overcoming site or development complexities. This should be described as a point of difference.

3 CORPORATE SOCIAL RESPONSIBILITY – 10% WEIGHTING

Describe how the development demonstrates tangible economic, environmental and social dividends.

4 QUALITY OF DESIGN AND FINISH – 10% WEIGHTING

Explain the ways in which the development exhibits a high quality of architectural design; is compatible with surrounding land uses; and contributed to the success of the development project (e.g. site constraints, unique design solutions, and project cost constraints).
